## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches a liquid crystal display device and a method of making a liquid crystal display device comprising various elements and steps as claimed, more specifically, as the following:

the first gate transmitting line of the plurality of gate transmitting lines has a first resistance, and the plurality of gate lines other than the first gate transmitting line have a second resistance, and the first resistance is less than the second resistance; [claims 1, 14 and 20 as shown in Fig.7].

The closest reference US 6,321,547 (Kang) discloses that the value of the resistance from the first gate line to the last gate line of the plurality of gate lines is increased so that the resistance of the first gate line is the smallest resistance, and by adjusting the resistance of the gate lines would prevent the imbalance in brightness of the liquid crystal display device. However, applicant effected the priority date of this application and the reference Kang having a later filing date than the priority date of this application

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
